There's a strong demand for larger storage sheds right now but often a limited amount of space to set it on. Our 2-story garages are a very practical way to obtain that extra storage. With the unique folding gable design, this structure comes delivered pre-assembled with the roof assembled at your site. They are available in the Barn and Gable (A-frame) style. Models above are shown with the optional Heritage garage door, architectural shingles, cupola, gable vents, and transom door windows.
